JECO PLASTIC PALLETS
1-800-593-5326
COMMERCIAL PRINTERS
FOLDING CARTONS
CONVERTERS

JECO Plastics has been manufacturing and supplying plastic pallets to commercial printers, folding carton industry and converters for over 45 years. We are a Veteran owned, small business for your Supplier Diversity needs.

JECO pallets are designed to compliment equipment by: **BOBST, HEIDELBERG MAN ROLAND, MUELLER, KBA, KOMORI, and for Digital needs, HP and XEROX.** We make pallets for the numerous sheet fed machines, as well as all varieties of web presses, digital and associated logistics systems. We make numerous roll pallets and bulk container applications. Pallets correspond with metric and SAE requirements, and allow the maximum sheet size to be used. Our pallets keep your press area **clean and Green!**

Roll Pallets - Multiple Diameters

Design JECO pallets are engineered to ensure the greatest quality, strength, and durability of its products. Our pallets provide unmatched weight bearing capabilities.

Manufacturing JECO ISO 9001:2015 CERTIFIED

Microprocessor controlled roto-molding machines produce pallets that have maximum consistency and tolerances. Only virgin polyethylene (LLDPE) is used to ensure a longer lasting pallet.

Quality Control - JECO has an extensive quality control system that includes an internal testing facility. Compression machinery is used to validate performance and pallet capacities. **JECO, the leader in quality plastic pallets.**

We also make heavy duty totes and containers for moving bulk materials.

Visit our web site for more information and contact our Print Team for specific needs.
